***Allowable Subject Matter***

1. Claims 1-23 allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the applicants representative have presented a persuasive argument, in a telephone conference on November 12, 2003, that the cited prior art of record fails to disclose a method for forming a planarizing medium for planarizing a microelectronic substrate comprises the step of disposing the discrete elements and a film support material on a support liquid with portions of the discrete elements spaced apart from each other and projecting from the support material and with the discrete elements configured to engage the microelectronic substrate and remove material from the microelectronic substrate. In fact, the closest cited prior art of Holmes et al (US 5,690,705) discloses a method for making a coated abrasives articles comprises the step of disposing the abrasive grits/discrete element 112 and a binder film 114/film support material on a coating layer 102 with portions of the discrete elements spaced apart from each other and projecting from the support material (col 13, lines 59-65; fig. 4)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
